Note : Distributor Prices may vary from the stated budgetary price. The pricing and availability information on this site is based on information provided by Renesas authorized distributors and is subject to change without notice. By selecting a distributor from this page, you will be redirected from the Renesas site to the distributor's website to complete a purchase. The distributors are independent from Renesas and maintain their own terms and conditions of sale. Renesas disclaims all representations and warranties, express and implied, with respect to transactions between distributors and their end customers.

Target Devices

- H8 Family H8/300L Series
  - *H8/3877 Group*
  - *H8/3877N Group*
  - H8/3857 Group
  - H8/3854 Group
  - *H8/3834 Group*
  - *H8/3814 Group*
  - *H8/3637 Group*
  - *H8/3627 Group*

* Support for a device written in gray italics is limited to customers who have already adopted these products.

Overview

The E6000 is a real-time in-circuit emulator from Renesas that has been developed in partnership by Renesas organizations in Japan, Europe, and United States as true World Tool. It represents a great advance in technology and performance, incorporating some features not found in high-end tools at an affordable price.

Package components

- E6000 emulator
- External probe
- PSU and mains lead
- CD-R (Emulator software, user manual)
- Setup guide for E6000 emulator

Target devices and options

* Support for a device written in gray italics is limited to customers who have already adopted these products.
